

Susan (Pankratz) has a rare gift for supporting music with both technical excellence and genuine care. As the sound engineer for Yala Lati Women's Choir, she beautifully balances dozens of voices, ensuring that every harmony can be heard while preserving the warmth and spirit of the music. Her attention to detail, professionalism, and steady presence allow me to relax and focus on leading the choir, knowing that we are in excellent hands. Susan is not only incredibly skilled at what she does, she is also collaborative, kind, and deeply supportive of artists. Our concerts are better because of her, and I recommend her with great enthusiasm.

- Heather Houston, Founder and Director, Yala Lati Women's Choir
